UMD Analysis of Satellite Data Shows Falling of Tropical Trees has Soared, Not Slowed

The rate at which tropical forests were cut, burned or otherwise lost from the 1990s through the 2000s accelerated by 62 percent, according to a new study of Landsat satellite data, which dramatically reverses a previous estimate of a 25 percent slowdown over the same period. Read More

Career Services for Alumni

As a member of UMD Alumni Association, you have access to the nation’s top career authors and experts as they share tips, tools and best practices you can use to manage your career and job searches.
