PC Classroom One Page Setup

Connecting an Output Device
*Connecting a device via HDMI OR VGA requires using the HDMI/ VGA connector located in the front of the classroom.*

HDMI/VGA Connections
a. Connect the HDMI cable from the wall to the HDMI port on your device OR connect the VGA cable from the wall to the VGA port on your device.
b. Power on the laptop, log on, and share/mirror screen on your device.

Starting the Crestron Touch Panel Display with Source (VGA/HDMI)
a. On the Crestron Touch Panel, touch the screen to start. "A/V System Starting Please Wait" will appear on the touch panel.
*At this time, the projector will come into focus.*
b. Select HDMI or VGA as the source to be displayed.
*At this time, your device will be displayed.*

Using the Crestron Touch Panel
Blanking/Unblanking the projector
a. To blank the projector, select “Press Blank Projector.” The “Press To Blank Projector” button will now turn blue.
b. To Unblank the projector, select “Press To Unblank Projector.”

Raising and lowering the Volume
*First, ensure the volume level on your device is unmuted.*
a. To raise the volume, select “VOL UP.”
b. To lower the volume, select “VOL DOWN.”
c. To mute, select “MUTE.”
• The “MUTE” button will now turn blue.
d. To unmute, select the “MUTE” button.
• The “MUTE” button will now turn back to the original color.

Shutting down the A/V System
a. To shutdown the A/V system, select “SHUTDOWN A/V SYSTEM.” “Are you sure you want to shutdown the A/V System” will now be displayed.
b. To continue shutdown, select “YES, SHUTDOWN A/V SYSTEM.” “Shutting down A/V system will appear” and the projector will shut off.
c. To cancel shutdown, select “NO, CANCEL A/V SYSTEM SHUTDOWN.”
MAC Classroom One Page Setup

Connecting an Output Device
* Connecting a device via MAC requires using the HDMI/ VGA connector located in the front of the classroom, along with bringing your own Apple HDMI/VGA connector. *

HDMI/VGA Connections
a. Connect either HDMI OR VGA cable on the wall to the HDMI OR VGA Apple Adapter to your device.
b. Power on your device, sign in, and share/mirror screen.

Starting the Crestron Touch Panel Display with Source (VGA/HDMI)
a. On the Crestron Touch Panel, touch the screen to start. "A/V System Starting Please Wait" will appear on the touch panel. *At this time, the projector will come into focus.*
